

Instant Stabilizer 100 Gallon

Brand: Bioguard

Product Code: 23217BIO

Availability: In Stock

Weight: 0.00oz

Dimensions: 0.00ft x 0.00ft x 0.00ft

Price: \$49.99

Description

1 Gallon - Liquid Instant Stabilizer 100

What it does

Instant Stabilizer 100 is used to prevent free chlorine residual loss in swimming pool water due to sunlight. Protecting your free chlorine from sunlight reduces chlorine consumption and maintenance costs.

Features

- 35% monosodium cyanurate monohydrate
 - Equivalent to 30% cyanuric acid
- Compatible with chlorine, Mineral Springs[®] and saltwater systems
- Quick-dissolving

Benefits

- Prevents free chlorine loss due to sunlight

- Improves efficiency of chlorine generators
- 1 gallon of BioGuard® Instant Stabilizer 100 raises CYA levels by 32 ppm per 10,000 gallons.

Directions for Use

Directions for Use

1. Shake well.
2. With pump running, slowly pour into the pool skimmer, or walk around the edge of the pool and pour directly into pool water. If added directly to pool water, brush to speed dispersal of the product.
3. Rinse container with pool water and shake to ensure all product is removed from the bottom of the bottle.
4. Pour remaining rinse solution into the skimmer or pool.
