Description

- Fast acting-helps raise pH
- Provides calcium hardness
- Kills algae and treats fouled, dirty and discolored water
- Contains no cyanuric acid
- 1 Lb. per 9000 gallons

Designed to be used in pools as a periodic shock treatment in regular maintenance and in:

- pools with visible algae on floor and sides
- pools with green water due to algae
- pools freshly filled that are green or brown due to mineral impurities
- pools starting up using water from previous season
- pools with cloudy water
