

## FROG @ease Test Strips

**Brand:** FROG

**Product Code:** 01-14-3350

**Availability:** 10

**Weight:** 0.00oz

**Dimensions:** 0.00ft x 0.00ft x 0.00ft

**Price:** \$10.99

### Description

Includes: 1 Bottle of @ease Test Strips(30 Tests)

FROG @ease technology its own unique testing method that's much easier than other test strips. One color match on the FROG @ease Test Strips easily shows when chlorine replacement is needed

In 2 seconds, you can know precisely whether your Total Alkalinity, pH, and Total Hardness are within ideal guidelines. Dip the FROG @ease Test Strip into the water for 2 seconds, remove with the pads facing up, shake once to remove the water on the FROG Test Strips and hold it next to the color chart on the back of the bottle to compare colors

Other test strips may indicate chlorine levels are too low, which will cause confusion and chlorine waste. The single color "Out Indicator" on the FROG @ease Test Strip bottle tells you if your cartridge needs to be replaced

FROG @ease eliminates organic contaminants 2 ways with FROG Sanitizing Minerals and SmartChlor – a unique, patented chlorine formula that adds a low level of chlorine only when needed. Say goodbye to constant monitoring

You use up to 75% less chlorine\* with FROG @ease, making water easier on skin, hair, swimsuits, and your hot tub's surfaces. FROG sanitizing minerals eliminates organic contaminants, condition the water for softness, and absorb acid to help keep pH balanced.
