Price: $13.99

Description
Includes: 1 Bottle of 7 way Test Strips(50 Tests)

Total Hardness

Monitor your Hardness levels to protect against corrosion, scale formation, cloudy water or excess foam.

Total Chlorine

Total Chlorine and Free Chlorine levels should match to maximize effectiveness of Chlorine

Bromine

An ideal level of Bromine helps to ensure clean, clear water that is safe for bathers.

Free Chlorine

An ideal level of Free Chlorine helps to ensure clean, clear water that is safe for bathers.

pH

Maintaining a proper pH level helps prevent scale formation & corrosion which can lead to costly repairs.

Total Alkalinity

A correct level of Total Alkalinity prevents sudden pH changes.

Stabilizer (cyanuric acid)

An ideal level of Stabilizer (cyanuric acid) helps protect against chlorine loss from exposure to sunlight.
