Description
1 Quart - Algae All 60

What it does

Algae All 60® is a non-foaming algae preventative. Weekly use prevents algae before its starts. It is suitable for use in pools with attached spas, waterfalls, or decorative fountains. It complements most sanitizers. Algae All 60® is a highly effective algae killer and algae preventative.

Features

- polyquat (Poly [oxyethylene (dimethyliminio) ethylene-(dimethyliminio) ethylene dichloride] 60%
- pH ~6.5
- Compatible with chlorine, bromine, Mineral Springs®, and saltwater pool care systems.
- Do not use in SoftSwim® or other biguanide sanitized pools unless instructed to do so for troubleshooting issues.

- Non-foaming
- Works with chlorine or bromine
- Non-staining
- pH neutral

Benefits

- Excellent for use with attached spas or fountains.
- Prevents all types of algae
- Kills green algae

Directions for Use
Directions for Use

1. Clean filter and adjust water balance.

2. Adjust pH to 7.2-7.6, adjust chlorine level to 1-4 ppm and establish minimum level of stabilizer of 30-40 ppm.

3. Control metals, if present, using Pool Magnet® Plus.

4. Add Algae All 60® directly to the pool with the pump running.

   Initial Dose: Apply 6 - 11 oz. per 10,000 gallons.
   Routine Maintenance: Apply 2 -4 oz. per 10,000 gallons every 5 - 7 days.
   For Light Algae Growth: Apply 11-17 oz per 10,000 gallons.
